

Fingerprint Safe

Features:

High accuracy at FRR (False Rejecting Rate) of 0.001%

1:N matching mode

Registration capacity: 50 fingerprints (255 for optional)

Possibility of use of batteries

Prompt of voice and LED

Existence of keys for registration, delete and safe-locking

Various application modes such as single-fingerprint and double-fingerprint modes and hotel mode and common mode, etc

Alarm against low voltage

It is possible to open the safe by driving the e-lock

Configuration:

Fingerprint Safe

Speciation:

Item		Specification
Response Time		Less than 1 second
Matching Mode		1:N
FAR		Less than 0.0001%
FRR		Less than 0.001%
Net Weight		18 kg
Dimension		350 x 300 x 255 mm
Registration Capacity		50 fingerprints
Working Voltage	Battery	4 x 1.5V(AA) batteries
	DC Power	5V/2A
Working Current	Dynamic Current	400 mA and downwards
	Static Current	10 mA and downwards
Battery Life		3000-time operations
Working Environment	Temperature	0 ~ 60
	Humidity	20% ~ 80%
Preserving Environment	Temperature	-10 ~ 80
	Humidity	10% ~ 90%
